

# Home Hub voice commands

Alexa, tell command center to [command] · Alexa, ask command center [command] · Alexa, open command center (then say [command])

## MODES

### Set a mode

set relax mode · turn on gaming · make it watching

### Modes

gaming · working · watching · social · relax · cooking · sleeping

### Return to autopilot

auto · back to automatic · release the override

## LIGHTS

### Brightness

make it brighter · make the lights dimmer · brighter · dimmer

## EFFECTS

### Effects

candle · fire · sparkle · prism · glisten · opal

### Start one

turn on the candle effect · start the sparkle effect

### Stop

stop the effect

## SCENES

### Scenes

party · neon · miami · arcade · aurora · sunset

### Run one

run the party scene · activate the aurora scene · set the miami scene

## MUSIC

### Playback
